Hi Natalie,

Area Command is set up down in Durango and they are managing resources for the event. I will let them know your capabilities (you're on the WERT and RSC roster so you're on the general list anyway). Also, it might be worthwhile to talk to Sarah Bahrman because she's been doing a lot of coordination between the states and command post on water issues. Thanks! Gina

Hi Gina,

Thank you for the information. I assume you are overwhelmed with people wanting to help but I also want to help with this event. I am the IOC Rule Manager for our drinking water program so I have some experience with metals data. Do you know if there is a list of people to call and if so can I get my name on the list?

Thank you,

Natalie

Subject: Gold King Mine Incident Update

On behalf of Shaun and Deb, I am sending out the 8/10 Gold King Mine incident update (attached), for your information. Please direct any questions you have to the EOC or your ARA, who can help direct you to the right person/department for answers.

Regards, Gina
